

**REMARKS/ARGUMENTS**

5       Claims 1, 4-8, 10-11, 13-14, and 16-20 are objected to because claims 1 and 11 recite the limitation “wherein the basic...of the data rate of the least distortion-tolerant modulation format...” However, the part of the limitation “...least distortion-tolerant modulation format...” is introduced for the first time. Examiner believes this is a typographical error, and should be changed to “wherein the basic...of the data rate of least distortion-tolerant modulation format...” Appropriate correction is required.

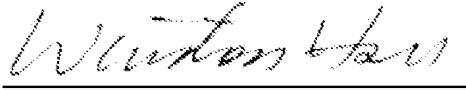

10    **Response:**

     Claims 1 and 11 have been amended to correct this limitation as shown in the Amendment to the Claims section above. Acceptance of the amended claims is respectfully requested.

15       As a result, all claims should now be in condition for allowance, and Applicant respectfully requests that a timely Notice of Allowance be issued in this case.
